

PROGRAM:

Thursday, 23 February 2012

17:00-18:00 Ludmil Katzarkov (Univ. Vienna): From Higgs Bundles to Stability Conditions.

18:30-19:30 Piotr Krasoń (Univ. Szczecin): On arithmetics in Mordell-Weil groups of abelian varieties.

Friday, 24 February 2012

9:00-10:00 Ludmil Katzarkov: On Spectra of Derived Categories.

11:00-12:00 Adrian Langer (Warsaw Univ. and IM PAN): Nef line bundles over finite fields.

14:00-15:00 Mateusz Michałek (IM PAN and Univ. Grenoble): Plethysm, representations of $GL(n)$ and secants of Grassmannians.

15:30-16:30 Ludmil Katzarkov: On the Shafarevich Conjecture.
