

**FRIDAY, SEPTEMBER 7, 2007**

**PLENARY SESSIONS**

**Hall A**

**SESSION 1**

**Chairman: Luigi Rodino**

9:00-9:40 **Ricardo Estrada**, Louisiana State University, Baton Rouge

*Distributions that are functions*

9:50-10:30 **James Vickers**, University of Southampton

*Generalized differential geometry*

10:30-11:00 **Coffee break**

**SESSION 2**

**Chairman: Man Wah Wong**

11:00-11:40 **Joachim Toft**, Växjö University

*Continuity properties for pseudo-differential operators acting on modulation spaces*

11:50-12:30 **Problem Sessions**

13:00-14:30 **Lunch**

**FRIDAY, SEPTEMBER 7, 2007**

**SECTION SESSIONS**

**SECTION A**

**Hall A**

**SESSION**

**Chairman:** Francesco Mainardi

15:00-15:30 **Marcelo R. Soares**, São Paulo State University

*On extension theorems for generalized holomorphic functions*

15:35-15:50 **Emin Ozcag**, Hacettepe University, Ankara

*Applications of the neutrix calculus to special functions in conjunction with the incomplete beta and gamma functions*

15:55-16:10 **Christian Olivera**, Buenos Aires University

*Neutrix products on  $R^m$  of homogeneous distributions, quasi-associated distributions and quasi-homogeneous distributions*

16:10 **CLOSING CEREMONY**

**FRIDAY, SEPTEMBER 7, 2007**

**SECTION B**

**Hall B**

**SESSION**

**Chairman: Ricardo Estrada**

15:00-15:15 **Jasson Vindas**, Louisiana State University, Baton Rouge

*Structural theorems for quasiasymptotics of Schwartz distributions*

15:20-15:35 **Sławomir Sorek**, University of Rzeszów

*On the composition of distributions*

15:40-15:55 **Aneta Dadej – Katarzyna Halik**, University of Rzeszów

*On the product of distributions via Hermite expansions*
