Warsaw, 6 April 2018

To whom it may concern

This is to certify that Ms. Matylda Hoffman participated in outreach activities within the framework of the EU project *New geometry of quantum dynamics* (H2020-MSCA-RISE-2015) by visiting the Institute of Mathematics of the Polish Academy of Sciences, the project coordinator, in the period 3-6 April 2018.

She stayed at the premises of the Institute and was familiarized with its functioning. She met and talked with mathematicians at different professional stages, from a graduate student to an accomplished full professor. They talked about their work as researchers and explained how to build up a career in the field of mathematics. Also, Matylda attended some classes at the University of Warsaw, and got acquainted with mathematical fundamentals and motivations of the Quantum Dynamics research project.
