

VI Hurwicz Workshop on Mechanism Design Theory

Programme

Friday, 02.12.2016

13:30–14:00

Speculative bubbles, heterogeneous beliefs, and learning

Jan Werner, University of Minnesota, US

14:00–14:30

Coalition bargaining in repeated games

Arnold Polanski, University of East Anglia, UK

14:30–15:00

On derivation, classification and egalitarian solutions of social dilemma games

Tadeusz Płatkowski, University of Warsaw, PL

Poster Session/Coffee Break

15:20–15:50

Existence of a unique core partition in coalition formation games

Hakan İnal, University West, SE

15:50–16:20

Homophily and influence: the weakness of weak ties

Fernando Vega-Redondo, Università Bocconi, IT

16:20–16:50

Axiomatic approach to centrality in networks

Oskar Skibski, University of Warsaw, PL

Coffee Break

17:10–17:40

On non-negative recursive utilities in dynamic programming with non-additive aggregator and nonlinear CES

Łukasz Balbus, University of Zielona Góra, PL

17:40–18:10

Isoelastic elasticity of substitution production functions

Jakub Growiec, Warsaw School of Economics, PL

18:10–18:40

Spillovers between skilled and low skilled labor migration in a multi-regional setting

Mehmet Barlo, Sabanci University, TR

19:00, Dinner

Saturday, 03.12.2016

09:00–09:30

Indeterminacy of Cournot-Walras equilibrium with incomplete markets

Michael Zierhut, Humboldt University Berlin, DE

09:30–10:00

A theory of value of information

Patrick Beissner, Australian National University, AU

10:00–10:30

Position auctions with endogenous supply

Sergei Izmalkov, New Economic School, RU

10:30–11:00

Dollar auction with spiteful players

Marcin Waniek, University of Warsaw, PL

Poster Session/Coffee Break

11:20–12:20 (*Invited Lecture*)

On the relation between the Nash program and implementation theory

Walter Trockel, Universität Bielefeld, DE

Lunch

13:30–14:00

Spying in the shadow of conflict

David Minarsch, University of Cambridge, UK

14:00–14:30

Spreading false rumours

Bartosz Redlicki, University of Cambridge, UK

14:30–15:00

Some implications of reference-dependent subjective expected utility model

Michał Lewandowski, Warsaw School of Economics, PL

15:00–15:30

An experiment on temptation and attitude towards paternalism

Michał Krawczyk, University of Warsaw, PL

Selected posters

A Stackelberg duopoly model with sticky prices and myopic follower

Agnieszka Wiszniewska-Matyszek University of Warsaw, PL

Doctor-patient communication: information vs. Recommendation

Joanna Franaszek, European University Institute, IT

R&D investments in markets with network effects

Małgorzata Knauff, Warsaw School of Economics, PL
