Addendum to "Lineability and spaceability of vector-measure spaces"

(Studia Math. 219 (2013), 155–161)

by

Giuseppina Barbieri (Udine),
Francisco J. García-Pacheco (Cádiz)
and Daniele Puglisi (Catania)

After our paper [BGPP] was published, Professor Lipecki kindly informed us that Theorem 1.5 of [BGPP] was already obtained in [DL] by different techniques.

The authors of [BGPP] acknowledge the priority of Lech Drewnowski and Zbigniew Lipecki in this respect.
