T. BARTOSZYŃSKI (Arlington, VA), M. DŽAMONJA (Norwich),
L. HALBEISEN (Bern), E. MURTIŃOVÁ (Praha) and
A. PLICHKO (Kraków)

In our paper we erroneously credited Lemma 2.8 to Prof. I. Juhász and Prof. Z. Szentmiklóssy. We wish to clarify that Juhász and Szentmiklóssy only showed us the proof.

We thank Prof. Z. Lipecki who has informed us that the lemma is well known and sent us the following list of older papers concerning that result:

1. A. H. Stone, *Mathematika* 6 (1959), 99–107 (Lemma 3.1).
2. A. H. Kruse, *Math. Z.* 83 (1964), 314–320 (Lemma 2).
3. W. W. Comfort, *General Topology Appl.* 1 (1971), 163–199 (p. 184).
4. K. P. S. Bhaskara Rao and M. Bhaskara Rao, *J. Indian Math. Soc.* 37 (1973), 347–349.
5. S. V. Kurochkin, *Vestnik Moskov. Univ. Ser. I Mat. Mekh.* 1982, no. 5, 51–52.
